## **INSTRUCTIONS**

This form shall be submitted in duplicate by the seismic contractor at least seven days prior to commencing any type of seismic exploration operations within the state of Utah. Upon approval of the permit, an Oil and Gas Exploration (OGEX) number will be assigned by the division. The OGEX number should be used in all future correspondence and reporting pertaining to the permitted work.

Once approved, the permit may be revoked at any time by the division for failure to comply with the Utah Oil and Gas Conservation General Rules and orders of the board. The permit will be in effect for six months from the date of approval. The permit may be extended upon application to and approval by the division.

Form 2, Seismic Exploration Completion Report shall be submitted to the division within 60 days after completion of each seismic exploration project.
